

As Vice President, Investment Management & Research, Gareth Watson plays a key role in helping to develop and communicate Richardson GMP's core investment strategy platform.

Gareth's extensive experience in equity research and private client advisory is integral in bolstering the capabilities of Richardson GMP's Investments & Advice Team. In support of his role as corporate spokesperson, Gareth's responsibilities include providing analysis and insight into the markets, working with print, radio, and television (BNN, CBC) media, and educating clients on the dynamics of the global economy.

Most recently, Gareth held equity research roles with Scotia Capital from 2001 to 2005. In 2005, he joined the Portfolio Advisory Group of ScotiaMcLeod with a focus on large cap Canadian Equities. His responsibilities included developing sound investment strategies, presenting investment portfolio solutions, and assisting investment professionals across the country with their business development initiatives.

As a graduate with high distinction from Wilfrid Laurier University in Waterloo, Gareth received his Bachelor of Business Administration degree. He is a member of the Toronto CFA Society as well as a CFA Charterholder.
